

EDUCATORS RISING

MISSOURI

MISSION

Educators Rising cultivates highly skilled educators by guiding young people on a path to becoming accomplished teachers, beginning in high school and extending through college and into the profession.

VISION

Every teacher in America has the skills and experience to help all students achieve their potential.

WHO WE ARE

Educators Rising is a national network of students and teacher leaders who are inspired and excited by the teaching profession.

HOW WE DO IT

In high school, Educators Rising supports curricular programs and extracurricular clubs where students explore the teaching profession and gain hands-on teaching experience. We provide teachers and school leaders with the resources they need to establish and teach these classes. Educators Rising also helps students and teachers connect and deepen their learning through the EdRising Virtual Campus, a cutting-edge online community that offers rigorous resources to support the development of great teachers.

HISTORY

Educators Rising is an evolution of the Future Teachers of America.
